

HC 48 - Running hours counter

• **Main function:** Type HC48 hour meters are designed for the determination and monitoring of operating time, warranty period and maintenance intervals on electrically driven machines and devices, mainly in the mechanical processing, woodworking, textile and paper industries. For AC or DC measuring voltage.

• **Size(mm):** 48x 48 (Adapter frames 55 x 55 or 72 x 72)

• **Accuracy class:** AC:1/100 hour (36s), DC:1/10 hour (6min)

• **Protection:** IP40 (IP65 available)

• **Counting range:** AC/DC:99999.99h

• **Measuring voltage:** 24-110-230VAC±10% and 10-48V DC, 110V DC±10%
